

# Your Move-In Internet Checklist

## 3-4 Weeks Before

- Run the exact address for availability
- Choose provider + plan
- Decide: transfer or switch
- Schedule installation
- Order equipment if self-install

## 2 Weeks Before

- Confirm appointment date + time window
- Ask if self-install is possible
- Prep old equipment for return
- Update the address if transferring

## 1 Week Before

- Reconfirm appointment
- Pack all networking gear in a labeled box
- Photograph the current setup
- Ensure someone is home for the installation

## Moving Day

- Keep the equipment box accessible
- Choose router location
- Clear access for tech
- Confirm the prior resident disconnected service

## Installation Day

- Be present for the appointment
- Verify router placement
- Test wired speed before tech leaves
- Document equipment serial numbers

## First 48 Hours After

- Change Wi-Fi password + SSID
- Connect all devices
- Speed test multiple rooms
- Identify dead zones early
